# CoachMatch

The real challenges of a company may be multiple and simultaneously very specific. The CoachMatch platform supports the selection process of appropriate coaches. Its intrinsic strengths are:

The common methodology for profiling companies' needs and coaches' competences;

The search engine for identifying relevant coaches, both locally within the group of your accredited coaches and internationally within the large pool of other coaching organisations;

List of coaches Search name	Competence fit	SME context fit ▼	Performance	Languages Search language	Country Search country	Action
Coach name 1	56 %	100 %	92 % (1 of 2)	English, Italian, Spanish	Italy	Evaluate
Coach name 2	69 %	100 %	63 % (3 of 4)	Dutch, English	Netherlands	Evaluate
Coach name 3	23 %	100 %	n/c (0 of 1)	English, German	Germany	Evaluate
Coach name 4	53 %	100 %		English, French, German	Germany	Evaluate

Example of SME context fit analytics

The analytics for in-depth evaluation of managerial competences and experiences in the SME context;

The shortlist generator for final coach selection;

The dedicated dashboards for coaching organisations (coach accreditation) and coaches.

"CoachMatch solution optimizes the matching, providing me with the short list of candidate coaches. Now I can focus on what is really important: facilitating the first talk between a candidate coach and the company"
